Audit and assurance

We see our annual audits and our assurance engagements as an opportunity to provide you with far more than statutory compliance. Our experts offer advice based on a wealth of experience from dealing with a wide variety of clients of varying size and complexity, covering a range of activities and objectives.

Our approach has a real emphasis on proactive communication and we endeavour to keep key stakeholders fully engaged with every step of the audit process, including in relation to their obligations and the timing of each stage. Through maintaining this regular communication, we can gain a true understanding of your goals and aspirations and the timescale set for achieving your desired outcomes.

At the conclusion of our audit work, we provide a report covering pertinent issues which have come to our attention during the course of our work. Where there may be scope to improve the effectiveness of the accounting procedures and controls, to improve the quality of financial reporting, or to save you costs we will discuss this with you to check the factual accuracy and the practicality of our recommendations.

Our highly experienced audit teams strive not only to highlight areas of opportunity, but also to identify practical solutions to latent challenges within your business ultimately helping you to reduce risk and protect your business.

Business services and outsourcing

Would you like more time to concentrate on the core profit-making areas of your business, while spending less time on administration, regulation and reporting? We provide a range of accounting, business advisory and compliance services to support your growth and changing requirements within the UK and around the globe.

As an extension of your business, we can replace or supplement your existing support function. We appoint a partner as your key point of contact with us, who is then responsible for managing your required business support services. We offer a full range of outsourced solutions, leaving you with the freedom to focus on running your business.

From company formation and company secretarial services to back office accounting and compliance, our wide range of business support services will deliver efficiencies and ensure compliance.

The support we can provide includes:

Payroll and executive payroll

Whether you are a small business looking to take on your first employees or a larger, global organisation looking to outsource your payroll function, we are able to assist.

Company secretarial

We provide a comprehensive suite of company secretarial services tailored to your company. We'll make sure you keep on top of things – so that's one very important worry off your mind.

With ever-increasing stringency within our tax regime and regulations set by case law, announced by HMRC or within the annual Finance Acts, making use of experienced tax specialists is a must.

Our range of corporate tax compliance services include:

- preparation and submission of self-assessment returns
- advice on instalments and other payment dates
- buying or selling a business
- Capital Allowances
- R&D Tax Credits
- loan relationships and foreign exchange
- group relief

VAT

With VAT affecting almost every business transaction, our specialist VAT advisers can help you to minimise your liability.

Although the basic concept of VAT is relatively simple, the legislation and regulations governing VAT are ever changing, thus making it a complex area. We appreciate that every organisation is different and the emphasis of our work is to understand individual problems and resolve them in a practical and realistic manner to support you.

Our VAT advisers are specialists in their field. Not only do they need to understand the complex UK and European rules and the effects of all cases, but also how those rules and interpretations can affect your business.

Where assignments are of an international nature, we use the local knowledge and expertise of member firms of UHY, our international network, which are located in major business centres throughout the world.

Corporate finance

There will inevitably be a stage in your business's lifecycle when you require corporate finance advice. No matter what move you are about to take, our experienced advisers can provide the support and assistance you need.

We can advise with all of the following:

- Business sales
- Acquisition searches and transactions
- Business valuations
- Exit and growth strategies
- Raising finance
- Due diligence
- Going public

We can advise on the entire transaction, from start to finish, or carry out individual tasks. Our flexible approach means that we will strive to find the right solutions and the most appropriate terms available in the market at the time.

Through our extensive contact list we can introduce you to appropriate experts, ensuring the right doors are opened for you. In addition, we regularly make use of our UK and international network, which allows us to cast a global net to find suitable counterparties to whichever transaction you desire.

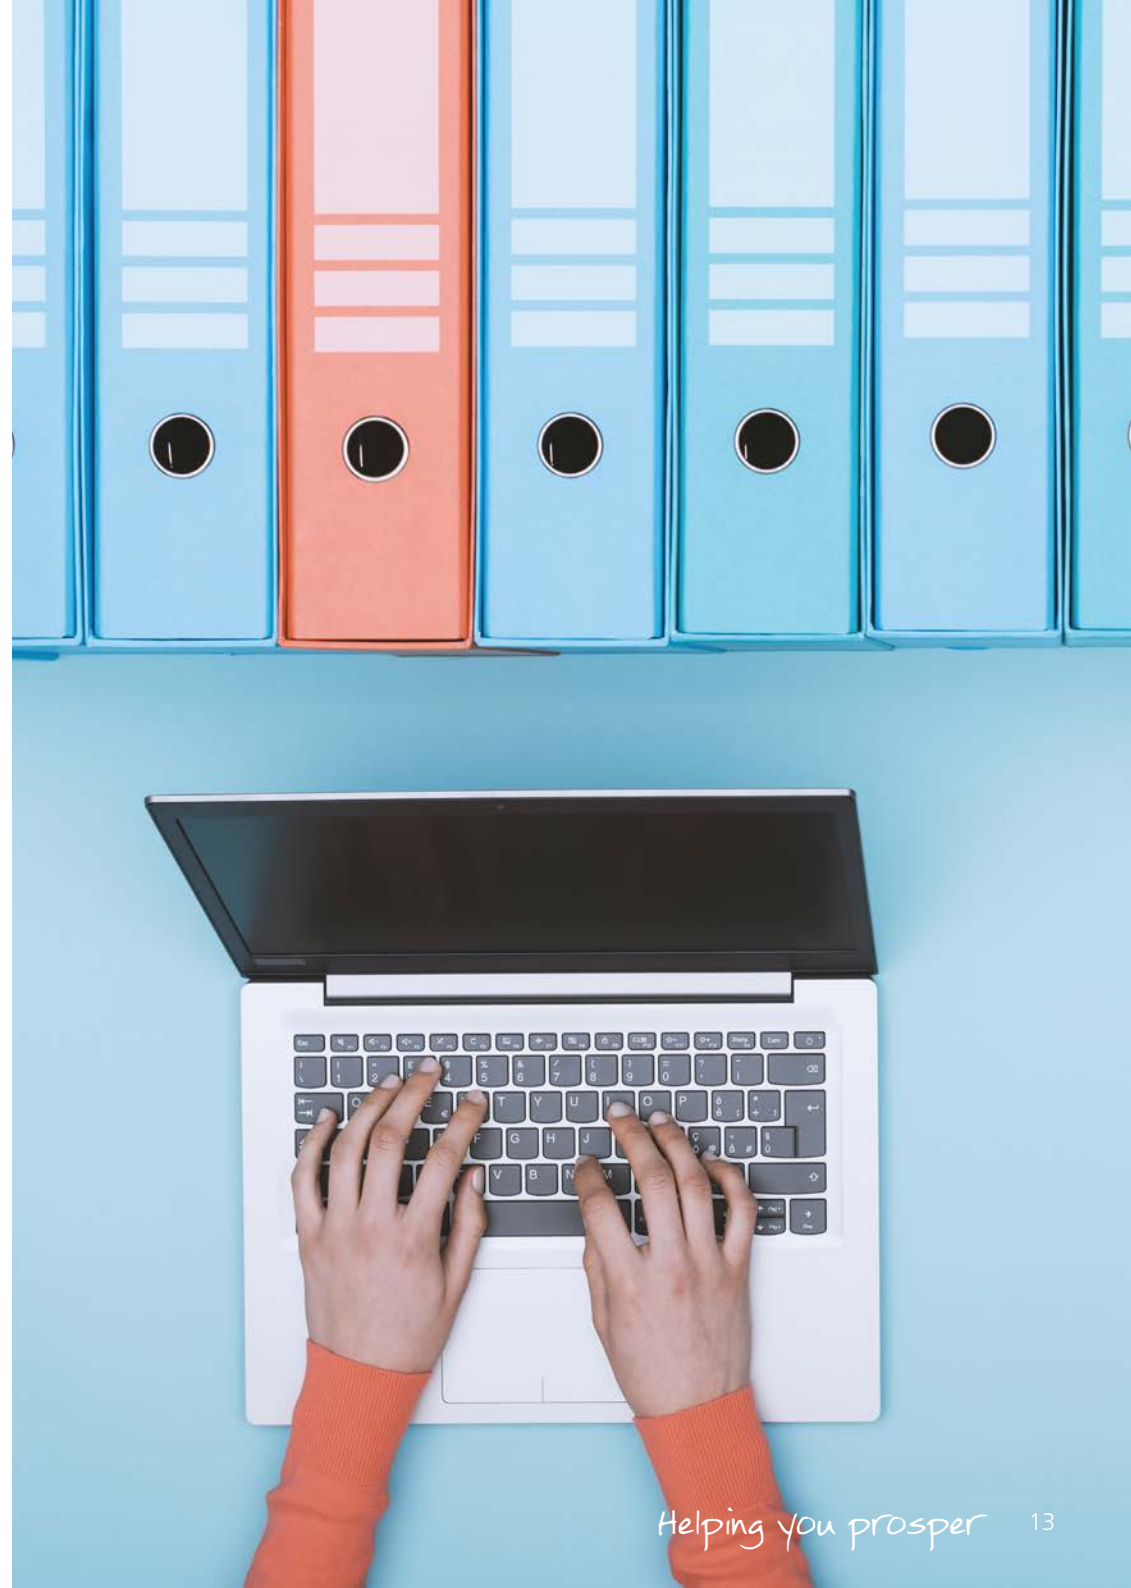

Cloud accounting

We have dedicated cloud experts across each of our UHY offices who combine their expertise with real time cloud technology to provide a range of online business support services, including accounts preparation, bookkeeping, payroll, VAT and corporate tax returns.

We specialise in all the key cloud accounting packages and UHY are Xero Platinum Partners. However, the real benefits of cloud accounting do not just sit in the core accounting packages. By integrating with additional apps and building bespoke cloud accounting solutions, you can take the financial management of your business to a whole new level.

Our cloud accounting team are focused on giving better financial advice and up to date real-time information, looking at the future instead of spending months looking at the past. With regular contact and easy to understand cloud based accounts and dashboards, our interaction becomes much better value, allowing us to give the advice you need so that you can make better informed decisions about your finances.

Backed by our deep understanding of regulatory requirements, we can give you time back; whether that's processing invoices, chasing debts, making supplier payments or even helping drive strategy at board level, we can provide specialist advisory services geared specifically to the unique challenges you face.

Personal tax

Most firms of accountants can deal competently with the preparation of tax returns but you need something more, someone who will guide you through the complexities of our tax system but who will also help you to achieve your financial objectives in a tax-efficient manner.

Whatever your background we can assist with tax mitigation, strategic planning, the preservation of wealth and passing it on to the next generation.

Our private client services team consists of highly experienced specialists advising on UK and international tax and trust issues. We are people focused and partner-led and our experience comes from many years of working alongside people like you, understanding your needs and providing the best solutions.

Topics we can advise on include:

- Income and capital gains tax planning and mitigation
- Succession and inheritance tax planning
- Services for trustees and executors
- Dealing with an HMRC enquiry, investigation or disclosure
- Taxation of non-domiciliaries
- Remuneration planning.

Financial planning

Our financial planning services aim to help you achieve your future financial objectives, whether for yourself, your family or your business. Whilst UHY Hacker Young does not directly offer regulated financial advice, these services are provided through specialist divisions, manned by independent financial advisers. They can advise on pension strategies, life and sickness cover, and investments and we will work closely with them (or, if preferred, your existing financial adviser).

Having assessed your current situation and understood your future needs, our advisers will help you make the most suitable choices from the full spectrum of financial planning products and services in the market. All of our financial planning advisers have undertaken professional examinations to ensure that the advice you receive is delivered by specialists who adhere to the highest standards of professional integrity and client service.

Our advisers have access to specialist technical support and research, ensuring that they are aware of the full range of products and services within the marketplace, and of the latest taxation and legislative changes which may affect your circumstances. Having personal financial planning specialists in our offices means that our partners and managers can work together with our advisers to ensure the best solution to meet your needs, however complex.

Internationalisation services

If you are looking to grow your business internationally, we can provide practical support and advice during the entire process. Whether exporting for the first time, or entering a new international market, selling goods or services abroad is an excellent way of gaining exposure to longer term growth and high impact profits.

Through our local experts, and a cohesive national and international network, we have the capability to provide you with a full range of professional services to assist you in the set-up of your international business operations.

We will guide you through the complexities of international tax to ensure that, wherever possible, withholding taxes are minimised and profits are repatriated in a tax efficient manner. We can also assist in tax planning for any UK employees/directors undertaking duties outside the UK, either on a temporary or permanent basis.

Through our cohesive international network of like-minded firms, we can also introduce you to in-country advisers who we know and work with regularly. Our international colleagues can guide you on local culture and custom, or can translate documents so that you are fully confident in your understanding of intent.

Turnaround and recovery

Our London based turnaround and recovery team have long standing experience of dealing with all forms of insolvency appointments.

Nobody likes to think that they are in financial difficulty, but sometimes it becomes apparent that a business cannot and should not continue. However, there are various options available and, if advice is taken early enough, it may still be possible to rescue a business.

The main objective of our team is to help rescue or restructure a business to return it to a profitable state. This also applies to our work with individuals facing personal bankruptcy or insolvency, where a speedy rescheduling of debt may be all that is needed to avert financial disaster.

Visit our website to view information about the different types of turnaround and insolvency. Alternatively, please call our free helpline to speak to one of our turnaround and recovery experts on 07771 653 104.
